

Examinations and Grades

GPA's are computed by including grades earned in both the regular semesters and summer sessions. If the student repeats a course, the grade earned in the course before it was repeated is included.

If the student's GPA cannot be computed with certainty when these rules are applied, by reason of an instructor's failure to assign a grade on time, the GPA is computed tentatively by assuming that the outstanding grade is a "C." When the outstanding grade is supplied, these rules apply retroactively, and action taken on the stated assumption yields to that application. The tentative determination of GPA under this paragraph is not made in determining the student's eligibility to graduate.

Examinations and Grades

A written examination or other evaluation method is used in each course upon its completion to determine the final grade received in each course.

The grading scale used is:

A	4.00	96 - 100
A-	3.75	90 – 95
B+	3.50	87-89
B	3.00	83 – 86
B-	2.75	80 – 82
C+	2.50	77 – 79
C	2.00	73 – 76
C-	1.75	70 – 72
D+	1.50	67 – 69
D	1.00	63 – 66
D-	0.75	60 – 62
F	0.00	Below 60

Grade Distribution Policy

GRADE	RANGE
A, A-	0 – 10%
B, B+, B-	15 – 25%
C, C+, C-	25 – 50%
D, D+, D-	15 – 25%
F	0 – 15%

The grade distribution policy projects what the Law Center believes is an equitable grade distribution in required courses. It is mandatory for first year courses and advisory for all other courses. The policy is not meant to affect how grades are distributed in clinical courses, practical

courses, legal writing, legal research, independent research, workshops, seminars, and classes with less than 15 students.

All required courses must be satisfactorily completed for graduation. The grade of "F" indicates failure in the course, and the course, if required for graduation, must be repeated satisfactorily in a subsequent semester. In computing quality points, all courses undertaken are considered, including those that the student has failed even though the course has been repeated. Beginning with classes entering in the fall of 2016, students who earn the grade of "D" or "D-" in a required course and who have a overall grade point average lower than 2.50 in the previous semester must repeat the course.

The student's GPA is computed by including grades earned in both the regular semesters and summer sessions. If the student repeats a course, the grade earned in the course before it was repeated is included.

If the student's GPA cannot be computed with certainty when these rules are applied, by reason of an instructor's failure to assign a grade on time, the GPA is computed tentatively by assuming that the outstanding grade is a "C".

When the outstanding grade is supplied, these rules apply retroactively, and action taken on the stated assumption yields to that application. The tentative determination of GPA under this paragraph is not made in determining the student's eligibility to graduate.

Withdrawal

A student who withdraws from a course without permission of the Vice Chancellor will receive the grade of "F" in the course. If a student withdraws from a course with permission of the Vice Chancellor within the time period set for such withdrawal, the student will receive the grade of a "W" for the course. If the student withdraws after the time period for withdrawal has expired, the student will receive the grade of "WF". Forms for withdrawal may be obtained from the Records and registration Department.
